There are great stories about scientists and their lives. One such a story is about Thomas Edison. As a young boy, Edison was very interested in science. He was very energetic and always asked questions. Sadly, young Edison lost his hearing at the age of 12. He did not attend school and learned science by reading books in the library himself.

When he grew up he worked in different places, but he never lost his interest in making things. Edison had more than 1,000 inventions and was very successful at the end of his life.

1. Edison finally lost his interest in inventing things.

a) true

b) false

2. Edison had many inventions.

a.true

b. false

3. Where did Edison learn science?

4. What did Edison do after he lost his hearing?
